

### Science Lesson 4 Learning Objective

- I can describe the function of a skeleton and know some of the bone names.

### Warm up your brain!

In the outline below, draw anything you know to be on the inside of a human being.

### The facts you need!

Ask your adult to help you find these and then watch them.

Can you name 2 or 3 reasons why we have a skeleton? \_\_\_\_\_

---

How many bones does an adult human skeleton have?\_\_\_\_\_

### **Your Creative Task...**

Now you know why we have a skeleton, try discovering some of the bone names by watching;

<https://www.youtube.com/watch?v=2k6H2Vnn3o4>

After that, have a go at learning where the different bones go on the skeleton.

[http://www.sheppardsoftware.com/health/anatomy/skeleton/Skeleton\\_game\\_1.htm](http://www.sheppardsoftware.com/health/anatomy/skeleton/Skeleton_game_1.htm)

Once you've understood this, then try building the skeleton bones on your own.
