

# CHJS Curriculum Map for History

*Let your light shine (Matthew 5:16)*

In history, children are encouraged to let their light shine by taking delight in learning how events in history have helped shape God's wonderful world. Children appreciate how changes in the physical world have influenced the human world and vice versa. Children use their knowledge of history to understand how society has developed and changed over time and to help make positive changes to the global community in the future. They are also encouraged to make positive changes within their classroom by sharing their knowledge with their peers and supporting each other with their learning.

<b>Christian Values</b>	<p><b>Courage</b> – Children develop courageous advocacy to make positive changes in the world from learning about historical events. They show the courage to take risks and learn from mistakes and they are inspired by historical human endeavour and exploration.</p> <p><b>Fairness</b> Children learn about changes in history and how this has influenced society as it is today – eg women’s rights to vote (suffragettes). Learning about how Leicester became multicultural and the rights of people regardless of heritage. They are given opportunities for healthy debate.</p> <p><b>Kindness</b> Children are able to compare their own lives with others in the past and show compassion for those in history who didn’t have what they have today.</p> <p><b>Koinonia</b> Through this subject, children can demonstrate understanding and respect of other culture’s histories and beliefs, including economic and political knowledge. They learn how our co-humanity is inextricably involved with others as we share life on planet. They learn how history has shaped different religious and cultural communities and why some countries have problems.</p>			

	<p><b>Responsibility</b> Children develop the discipline for seeking wisdom. They can use their knowledge of history and historical events to help them understand how the world is developing today. Eg – understanding the history of climate change and how this is changing. Understanding historical events and how these influence borders/policies/politics around the world.</p> <p><b>Thankfulness</b> Children show thankfulness for the people and events that helped shape our history and which have led to where we are in society today (eg people who fought in WW1 and WW2)</p> <p><b>Truthfulness</b> Children explore this value through discovery, through the investigative aspects of history and historical enquiry. They develop a growing appreciation for the positive impact historians can have when learning about and influencing current and new ideas about where society is now, due to past events.</p>
<p><b>Spiritual Development</b></p>	<p>Our study of History involves a sense of curiosity and the mystery of how and why events in the past happened and raises questions as to what could have happened if events had had different results. Artefacts are used to give pupils a sense of the past and aid pupils in understanding the people who produced and used these objects. Pupils are encouraged to explore the role played by important individuals, for good or ill, in the shaping of the world we live in. Pupils also reflect upon different interpretations of the past and how these interpretations have been arrived at.</p>
