Statement of intent

Church Hill C of E Junior School is committed to maintaining the confidentiality of its information and ensuring that all records within the school are only accessible by the appropriate individuals. In line with the requirements of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018 the school also has a responsibility to ensure that all records are only kept for as long as is necessary to fulfil the purpose(s) for which they were intended.

The school has created this policy to outline how records are stored, accessed, monitored, retained and disposed of, in order to meet the school's statutory requirements.

This policy will be implemented in accordance with the following school policies and procedures:

- Privacy Policies
- Data Protection Policy
- Site Security Policy
- Online Safety Policy

Responsibilities

The school as a whole has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.

The headteacher holds overall responsibility for this policy and for ensuring it is implemented correctly.

The data protection officer (DPO) is responsible for the management of records at Church Hill C of E Junior School.

The DPO is responsible for promoting compliance with this policy and reviewing the policy on an annual basis, in conjunction with the headteacher.

The DPO is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy and are disposed of correctly.

All staff members are responsible for ensuring that any records for which they are responsible for are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy.

Management of pupil records

Pupil records are specific documents that are used throughout a pupil's time in the education system – they are passed to each school that a pupil attends and includes all personal information relating to them, e.g. date of birth, home address, as well as their progress and achievement.

The following information is stored on the front of a pupil record, and will be easily accessible:

- Forename, surname, gender and date of birth
- Unique pupil number

The following information is on the schools electronic Pupil Management System (Arbor), and will be easily accessible:

- Ethnic origin, religion and first language (if not English)
- Any preferred names

- Position in their family, e.g. eldest sibling
- Emergency contact details and the name of the pupil's doctor
- Any allergies or other medical conditions that are important to be aware of
- Names of parents, including their home address(es) and telephone number(s)
- Name of the school, admission number, the date of admission and the date of leaving, where appropriate
- Any other agency involvement, e.g. speech and language therapist

The following information is stored in a pupil record, and will be easily accessible:

- Admissions form
- Details of any SEND
- If the pupil has attended an early years setting, the record of transfer
- Notes relating to major incidents and accidents involving the pupil
- Any information about an education and healthcare (EHC) plan and support offered in relation to the EHC plan
- Any notes indicating child protection disclosures and reports are held
- Any information relating to exclusions
- Any correspondence with parents or external agencies relating to major issues, e.g. mental health
- Notes indicating that records of complaints made by parents or the pupil are held

The following information is subject to shorter retention periods and, therefore, will be stored separately in a personal file for the pupil in the school office:

- Absence notes (information will be retained on Arbor)
- Parental and, where appropriate, pupil consent forms for educational visits, photographs and videos, etc.
- Correspondence with parents about minor issues, e.g. behaviour
- Hard copies of disclosures and reports relating to child protection are stored in a sealed envelope, in a securely locked filing cabinet in the Headteachers office – a note indicating this is marked on the pupil's file. Electronic notes will be stored on CPOMS.
- Hard copies of complaints made by parents or pupils are stored in a file in the headteacher's office – a note indicating this is marked on the pupil's file and stored electronically on the schools computerised system.
- Actual copies of accident and incident information are stored separately on the school's management information system and held in line with the retention periods outlined in this policy.
- The school will ensure that no pupil records are altered or amended before transferring them to the next school that the pupil will attend.
- The only exception to the above is if any records placed on the pupil's file have a shorter retention period and may need to be removed. In such cases, the DPO responsible for disposing records, will remove these records.
- Electronic records relating to a pupil's record will also be transferred to the pupils' next school. Section 10 of this policy outlines how electronic records will be transferred.
- The school will not keep any copies of information stored within a pupil's record, unless there is ongoing legal action at the time during which the pupil leaves the school. The responsibility for these records will then transfer to the next school that the pupil attends.

- The school will, wherever possible, avoid sending a pupil record by post. Where a pupil record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The school it is sent to is required to sign a copy of the list to indicate that they have received the files and return this to the school.

Storing and protecting information

The DPO will undertake a risk analysis to identify which records are vital to school management and these records will be stored in the most secure manner.

Where possible, backed-up information will be stored off the school premises and will be cloud based.

Confidential paper records are kept in a locked filing cabinet, drawer or safe, with restricted access.

Confidential paper records are not left unattended or in clear view when held in a location with general access.

Digital data is coded, encrypted or password-protected, both on a local hard drive and on a network drive that is regularly backed-up off-site and in the cloud.

Where data is saved on removable storage or a portable device, the device is kept in a locked and fireproof filing cabinet, drawer or safe when not in use.

Memory sticks are not used to hold personal information unless they are password-protected and fully encrypted and permission given by the ICT technician.

All electronic devices are password-protected to protect the information on the device in case of theft.

Where possible, the school enables electronic devices to allow the remote blocking or deletion of data in case of theft.

Staff and governors do not use their personal laptops or computers for school purposes. (Governors are responsible for storage of information on their personal laptops/computers, regarding work on governance).

All members of staff are provided with their own secure login and password, and every computer regularly prompts users to change their password.

Emails containing sensitive or confidential information are password-protected to ensure that only the recipient can access the information. The password will be shared with the recipient in a separate email.

Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients.

Where personal information that could be considered private or confidential is taken off the premises, to fulfil the purpose of the data in line with the GDPR, either in an electronic or paper format, staff take extra care to follow the same procedures for security, e.g. keeping devices under lock and key.

The person taking the information from the school premises accepts full responsibility for the security of the data.

Before sharing data, staff always ensure that:

They have consent from data subjects to share it.

Adequate security is in place to protect it.

The data recipient has been outlined in a privacy notice.

All staff members will implement a 'clear desk policy' to avoid unauthorised access to physical records containing sensitive or personal information. All confidential information will be stored in a securely locked filing cabinet, drawer or safe with restricted access.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The physical security of the school's buildings and storage systems, and access to them, is reviewed termly by the site manager in conjunction with the DPO. If an increased risk in vandalism, burglary or theft is identified, this will be reported to the headteacher and extra measures to secure data storage will be put in place.

The school takes its duties under the GDPR seriously and any unauthorised disclosure may result in disciplinary action.

The DPO is responsible for continuity and recovery measures are in place to ensure the security of protected data.

Accessing information

Church Hill C of E Junior School is transparent with data subjects, the information we hold and how it can be accessed.

All members of staff, parents of registered pupils and other users of the school, e.g. visitors and third-party clubs, are entitled to:

Know what information the school holds and processes about them or their child and why.

Understand how to gain access to it.

Understand how to provide and withdraw consent to information being held.

Understand what the school is doing to comply with its obligations under the GDPR.

All members of staff, parents of registered pupils and other users of the school and its facilities have the right, under the GDPR, to access certain personal data being held about them or their child.

Personal information can be shared with pupils once they are considered to be at an appropriate age and responsible for their own affairs; although, this information can still be shared with parents.

Pupils who are considered to be at an appropriate age to make decisions for themselves are entitled to have their personal information handled in accordance with their rights.

The school will adhere to the provisions outlined in the school's GDPR Data Protection Policy when responding to requests seeking access to personal information.

The data will be archived to dedicated files on the school's server, which are password-protected – this will be backed-up in accordance with section 10 of this policy.

Memory sticks will never be used to store digital data, subject to a digital continuity statement.

The ICT technician will review new and existing storage methods annually and, where appropriate add them to the digital continuity statement.

The following information will be included within the digital continuity statement:

A statement of purpose and requirements for keeping the records

The names of the individuals responsible for long term data preservation

A description of the information assets to be covered by the digital preservation statement

A description of when the record needs to be captured into the approved file formats

A description of the appropriate supported file formats for long-term preservation

A description of the retention of all software specification information and licence information

A description of how access to the information asset register is to be managed in accordance with the GDPR Information audit.

The school will conduct an audit on an annual basis against all information held by the school to evaluate the information the school is holding, receiving and using, and to ensure that this is correctly managed in accordance with the GDPR. This includes the following information:

Paper documents and records

Electronic documents and records

Databases

Sound recordings

Video and photographic records including CCTV recordings

The information audit may be completed in a number of ways, including, but not limited to:

Interviews with staff members with key responsibilities – to identify information and information flows, etc.

Disposal of data

Where disposal of information is outlined as standard disposal, this will be recycled appropriate to the form of the information, e.g. paper recycling, electronic recycling.

Where disposal of information is outlined as secure disposal, this will be shredded or pulped and electronic information will be scrubbed clean and, where possible, cut. The DPO will keep a record of all files that have been destroyed.

Where the disposal action is indicated as reviewed before it is disposed, the DPO will review the information against its administrative value – if the information should be kept for administrative value, the DPO will keep a record of this.

If, after the review, it is determined that the data should be disposed of, it will be destroyed in accordance with the disposal action outlined in this policy.

Where information has been kept for administrative purposes, the DPO will review the information again after three years and conduct the same process. If it needs to be destroyed, it will be destroyed in accordance with the disposal action outlined in this policy. If any information is kept, the information will be reviewed every three subsequent years.

Where information must be kept permanently, this information is exempt from the normal review procedures
