

Falling Lemon

You'll need:

Card folded into a triangle column and taped securely.

Piece of card - A5 size

Small object that is big enough to sit on top of the column.

Pint glass

Instructions

Place the A5 sheet of card on top of the pint glass.

Carefully put the triangular column on the card.

Balance the lemon on top of the column, it needs to be directly above the glass.

Hold the glass with one hand and then quickly pull the A5 card with the other hand.

The lemon should drop into the glass!

AS THE LEMON IS HEAVIER THAN THE CARDBOARD COLUMN IT DOESN'T MOVE AS EASILY AND SO DROPS STRAIGHT DOWN!

What else can you use?
